IPARTNER allows you to optimize your customer solution by making the systems cooperative by offering a modular platform solution for supervision, service and by creating a link

with **the customers** to propose a solution perfectly adapted to the needs

with **the technical teams** during the integrations

with **technological partners** to integrate innovations

a **lasting link**, in continuity

Full range of services / 100% source code owner / **Local successes in the last 4 years** (SAKAKA, JEDDAH, SABIC, SWCC, SUDAIR...)

Thank you for your attention
